

# One Child. One House. Local Impact.

Blessings in a Backpack helps brighten the future for children throughout Lee County.

## ***We Need Your Help.***

In a time when we so willingly provide help to those in-need across the ocean, we must take the time to remember those who are much closer to home.

Children all over Lee County suffer from hunger on a weekly basis. It's up to us to ensure that the future leaders of our community get the food they need for success.

The "One Child One House" campaign will have a huge impact on the future of our community as a whole. Your donation can ensure that a qualifying child will go home from school for the weekend with a backpack full of nutritious, lightweight and easy to prepare food items. This ensures that they not only have enough to eat for the weekend, but that they return to school fueled and ready to learn.

***One house helping one child makes our community whole.

“ *Blessings in a Backpack is the most positive community supported program I've had the privilege of being involved with in my thirty-four years in education.*

*We've seen marked improvement in attendance and academic achievement in the year and a half that Tice has been a Blessings in a Backpack school. ”*
